### **Annotation:**

In this article, the religious essence of Islam in our society, its inter-religious aphorisms and its extremely beautiful qualities in the human world are highlighted with evidence.

**Keywords:** Religious tolerance, social networks, Uzbekistan and world religious ideas, Islamic religious virtues, religious fanatics.

The beginning of the word: Assalomu alaykum! - The word "Hello" is unique to all nations and peoples, it is the beginning of the word for the virtues of tolerance in human life, it is the first word of our heart that awakens inter-national love and smile in the heart and soul of humanity and binds the bonds of tolerance.

The qualities of the word "Hello" are characteristic of the values of tolerance: Greeting means such great qualities as innocence, friendship, non-enmity, kindness, loyalty and faithfulness, honesty, respect and reverence. Inter-ethnic harmony or religious tolerance reflects the expression of stability in the high value of the Uzbek people. In the ancient national traditions of the Uzbek people, every nation and people living in Uzbekistan participates in harmony with the Uzbek people, with a smile on their face and a heart full of love, which is said with sweetness. and we can say that the sentence "Assalamu alaykum", which contains many noble meanings, is a clear expression of a worthy response to the high respect of the Uzbek people.

Special attention is paid to such inter-ethnic, multi-faceted issues in every sector of our Republic, and the values of every nation in the people-loving society of Uzbekistan are guaranteed to be supported by the state in the religious, scientific, and even political worlds.

### **CONCEPT OF RELIGIOUS TOLERANCE:**

"Tolerance means respect, acceptance and correct understanding of different rich cultures in our world, different ways of self-expression and manifestation of human individuality."

In the human world, every past moment is known as the memories of history. Then the question arises. Why do we consider every past moment of our life as memories of history? The answer is as follows: Because no power can ever take back the moments of life given by God. This test was ordered by God in the book of human life. This life test was understood by the great Islamic scientists and wise scholars of the history of

the Uzbek people who said: **"From the good there is a garden, from the bad there is a stain"** We look at the ideologies and original ideas of the Islamic religion and witness the malicious and untrue tragedies that are being carried out on earth in the name of the Islamic religion.

The concept of tolerance is one of the widely used concepts in various fields of scientific activity and social life, including politics, philosophy, theology, social ethics, and comparative religion. In the years of independence, special attention was paid to the religious sphere, and large-scale work was carried out in this regard. Wide opportunities have been created to pray safely in mosques, to acquire religious and secular knowledge in madrasas. Our national traditions, customs and religious values have been restored. As an example of these, we can cite the following sentence. The fact that Ramadan and Eid al-Adha were widely celebrated as national holidays and that these days were declared as rest days was a real gift for the Muslims of Uzbekistan. Hazrat Imam Complex, Imam Bukhari Center and many monuments and shrines in our country have been renovated and put into use. But those who can't see our peace, wanted to find our supposedly empty side in order to realize their strange intentions, they fell into the moment of instilling their corrupt ideas into our minds.

Currently, representatives of more than 130 nationalities and peoples live in harmony in Uzbekistan. This is also a proof of how tolerant our religion, Islam, is. Our Prophet, peace be upon him, said: "You have the right to neighbor your neighbor of another religion. Do good to him," they urged people to get along with representatives of other religions. It is necessary to explain that Islam is a pure and tolerant religion in such examples.

The Constitution of the Republic of Uzbekistan states that everyone has the right to believe in any religion or not to believe in any religion. Forced indoctrination of religious views is not allowed. And in the Holy Qur'an it is said that "rape is a burden in religion". However, in recent years, those who violate these requirements are trying to instill their corrupt ideas into people's minds. The duty of the representatives of the religious sphere is to prevent people with evil intentions from doing their heinous deeds under the guise of Islam, and to convey to the minds of our people that pure Islam does not allow such evil deeds.

In various parts of the world, sedition, murder, destruction of houses and terrorist activities are being carried out under the guise of Islam. All these things are illegal and completely against the principles of Islam. First of all, Islam is a religion of peace. He calls people to cooperate with each other, to show kindness to each other, to live peacefully and to do good.

**Uzbekistan and the world in social networks:** Today, by using Internet mass media that attracts the attention of humanity on earth, destructive ideas of society distort the public opinion and achieve their malicious goals very easily by using them to carry out their malicious work under the mask. For example, by paying attention to the terrible events in Afghanistan, Syria or today's Kazakhstan from the point of view

of science, it is easy to understand the conclusion that the young future generation will be deprived of education, instead of getting an education in a bloody, barbaric environment, they will live with a drop of water or a loaf of bread. who is the cause? - There are those from among the people who believe in false and hidden proposals and oppose the state and society. It's a pity, those with malicious goals settled down and achieved their goals, and no one could pay attention to the simple idle people, and the promises are not good at all! The sages of our great history warned us about these terrible tragedies and said: "Regret is your enemy." Can we practice ethnic harmony or religious tolerance in such an evil society? Not at all! Because wherever there is peace, harmony can be created, and beauty is incomparable because of the rule of peace in Uzbekistan, conditions have been created to guarantee the religion, belief, education, and legal freedom of every nation and people.

**In the hadith, they said: "He who is saved from suffering from his tongue and hands is a Muslim."** Unjust killing is forbidden in Islam. Now let's go back to those who practice the above mentioned ignorant behavior. Islam calls for peace, but they are disturbing the peace of the people. Islam calls to benefit the society, they are harming the society. Islam urges not to harm anyone with hand or tongue, and they are taking the lives of innocent people.

**The ideas rejected in the religious interpretation of Islam:** Fraud, immorality, taking human life, ignorantly taking one's own life, working against society and humanity under a covert disguise, it has forbidden and rejected bad qualities such as sedition, selfishness, gossip, and ingratitude among people. and people should criticize such ideologies as "Islam emphasized destructive ideas" and should never allow these actions in the society. Although a person is able to work physically in life, but without working, joins various ideologies and makes wrong complaints, this category of people is said to be "ungrateful servant" in our religion of Islam.

Religious virtues and interpretations of Islam have been promoting virtues such as decency, kindness, goodness to humanity, peace, friendship towards each other, not to criticize or criticize other religions in the idea of religious tolerance.

**Allah Almighty says: "O people! Indeed, We created you from one male (man) and one female (Eve) and made you into different nations and tribes so that you may know each other. Indeed, in the sight of Allah, the most honorable of you is the most pious. Verily, Allah is All-Knowing, All-Aware" (Surat al-Khujurat, verse 13).**

It is known in the statement of this chapter of the Islamic religion in the Qur'an: Who means that we realize that all mankind on earth was created from one man (man) and one woman (Eve) and that we are always close to each other as brothers and friends. No one can deny the evidence of this surah of the Qur'an! The religion of Islam proves that there are integral, inseparable bonds in the destiny of humanity, such as tolerance,

that is, solidarity in the religion of Islam, which means the concept of thinking that all people on earth are inseparable.

**High values of interethnic harmony and religious tolerance in new Uzbekistan:**

In the Republic of Uzbekistan, a wide range of official and guaranteed works have been carried out on issues of inter-ethnic harmony and religious tolerance. The Center of Islamic Civilization, Islamic Academy, "Mir Arab" Higher Madrasa, "Imam Bukhari" and "Imam Termizi" international scientific research centers established in our country in recent years serve to study and promote our rich, scientific and historical heritage. Today, the Republic of Uzbekistan plays an important, positive and responsible role in international relations in the world and in Central Asia.

President Shavkat Mirziyoyev offered the participants of the 72nd session of the UN to accept the special resolution of the UN General Assembly called "Enlightenment and religious tolerance". The main purpose of this document is to help ensure the right to education for all, and to end illiteracy and ignorance. This resolution is aimed at establishing tolerance and mutual respect, ensuring religious freedom, protecting the rights of believers, and preventing their discrimination. The fact that this initiative was supported by other countries of the world once again increased the influence of Uzbekistan in foreign policy in terms of ensuring religious tolerance.

In conclusion, it should be said that a new model of inter-ethnic and inter-religious relations was created as a result of the reforms carried out in the field of inter-ethnic harmony and religious tolerance in our country in order to strengthen the environment based on positive and mutual respect. This model is based on inter-ethnic and inter-religious dialogue between representatives of different nationalities and religions, constructive approach and equality of all citizens before the law.

In the Republic of Uzbekistan, attention is paid to the issue of inter-national religious tolerance, not only at the global level, but also in special religious areas.

In general education schools, which are considered the first foundation of our country and society, the minds of the young future generation are taught religious freedoms, religious relations and the history of all religions, including the understanding of the position of Islam in Uzbekistan and on the world scale, and correct adherence to the rules of Islam. What is the purpose of paying such attention to religious issues in Uzbekistan? In the school field, the history of religions, their procedures, respect for each religion and not to express wrong attitudes towards its values, knowing what it consists of, believing in all kinds of unofficial religious propaganda, and believing the lies of the seditious fatwas who create tragedies in the society. and literature are being taught by teachers. Providing such education is as much a concern as saving or protecting the young generation from toxic evil ideas. We should think that it is the duty of every person to give a proper response to the creation of such high care opportunities for the people by our state, to say thanks and to appreciate this opportunity.

### **Religious Fanatics**

This topic is one of GLOBALISM in our country, that is, one of the global-economic, political-social issues, which has been showing its negative effects on the whole world society with its secret groups and actions. In today's society, in our inter-state and inter-national religious tolerance relations, there are groups of religious fanatics, including secret groups under the name "Al-Qaeda" or "Ishid". They organized various conflicts and tragedies in order to wipe them from the earth and the history of humanity with their malicious actions. No matter how hard these evil forces try, all the good deeds of Islam have been sealed in the hearts of humanity and humanity, and the work of inter-national religious tolerance is getting stronger.

At the end of our conclusion, it should be noted that former President I.A. Karimov urged the Uzbek people to be aware; "The sky of the alert nation is pure."

We must not forget that where there is peace, progress, harmony, prosperity, tolerance, and other developments will always be shared.
